Subject: Comments on Yucca Mountain Nuclear Waste EIS

LSN: Relevant - Not Privileged

User Filed as: Excl/AdminMgmt-14-4/QA:N/A

Dear Sir:

1 [Please do not approve this nuclear waste site.
There are so many problems with this site that
approval would be irresponsible folly - geological
problems with the site, trashing of a native American
holy site, loaded waste containers siting in poorly
protected railroad yards for up to 2 years.]

Please act responsibly.

Yours truly,

Charles W. Morgan
